

2. Conclusion

Amended claim 20 is now positively reciting the limitation that said lens is curved. After the amendment of claim 20, depended claims 21-25 are definite and should be allowed.

Amended claim 29 is not confusing now since the new feature belongs to an additional surface zone

For all the above reasons, applicant submits that all claims are in proper form and define patentability over the prior art. Therefore the applicant submits that this amended application is now in condition for allowance, which action he respectfully solicit.

Very respectfully,
